

SAND VOLCANO EXPERIMENT!

Making a sand volcano at home is so easy and will WOW the children! With very few materials needed to make an impressive eruption, it is a great science experiment that everyone can enjoy.

Everything you need to make your volcano erupt!

- Sand
- Tray
- A sand bucket or cup
- Baking soda
- Vinegar
- Food colouring
- Washing up liquid

How to make your volcano!!!

STEP 1: Place your cup in the middle of a tray and cover with sand. Make sure there is a hole at the top for the eruption.

STEP 3: Fill your cup just over half full with water, add 3 tea spoons full of baking soda, food colouring and give it a good stir until most of the baking soda dissolves.

STEP 4: Add a good squirt of washing up liquid into the cup and once again give it a stir.

STEP 5: Make sure your volcano is in the kitchen or outside (or somewhere you don't mind making a mess).
