

Fluffy Slime

Beat up a storm with this super-soft, foamy recipe. It might feel like clouds of marshmallow, but this slime is NOT to eat!

TIME: 10 MINUTES 

DIFFICULTY: EASY 

WARNING: NON-EDIBLE 

YOU WILL NEED

- * 480 ml (17 fl oz) shaving foam (not gel)
- * food colouring of your choice
- * 60 ml (2 fl oz) PVA glue
- * ¼ tsp bicarbonate of soda
- * 1 tbs eyewash – it must contain boric acid or sodium borate

Whip in the eyewash. When the mixture starts to get stringy, you're almost there.

Hands at the ready! Knead the slime until puffy and soft. Add more eyewash if your mixture is too sticky.
