

Bake- off bunting!

Use your baking and motor skills to pipe some patterns onto your own Great British Bunting!

You will need:

- Freezer bags or piping bags
- Scissors
- Paint
- Paper
- String
- Glitter, sequins, feathers etc.

1. Lay out your paper. This might get messy, so you may want to do this outside!
2. Half fill your bags with paint and seal at the top if you can.
3. Over the paper, snip a small corner from your bag.
4. Squeeze and make patterns on your paper. Can you draw shapes or watch an adult trying to write your name?
 - If you will struggle to squeeze your bag yourself, try laying the bag flat on the paper and pushing on it, to make the paint squirt out or watch the paint drip and swirl from a height.
5. Add your glitter, feathers and any other beautiful pieces to make it your own.
6. Leave to dry.
7. Cut out your triangles and thread onto your string. Hang your bunting up and enjoy!
