

# Explore Task

## Make a Toy Parachute

### What You'll Need

- Plastic bag
- Cup
- Rope/string
- Toy

1. Cut the handle end off a plastic bag. Cut 4 holes in a plastic cup around the rim.
2. Tie the rope/string between the holes in the cup and the plastic bag.
3. Decorate your cup and launch.
4. See if you can add a toy to the cup and if it falls quicker or slower.
5. You could even time how long it takes to fall.  
What makes it fall quicker/slower?
