

# Tea and Coffee Art

No British picnic is complete without a thermos of tea or coffee! Try different types of fruit tea for a range of smells and colours.

- Select your paint! Try smelling coffee and different types of tea (red berry, green, lemon and ginger etc) to choose how you would like to paint. Put several into each cup.
- An adult will need to boil the kettle and pour a small amount of water into each cup.
- Wait for it to cool before painting! While you wait, watch this video of some coffee painting for inspiration: [click here](#)
- Use a paintbrush or the teabags themselves to paint your art. Experiment with the splatters and spills and see what wonderful abstract art you can create!

Try creating your own piece alongside your child. Children love to see adults become absorbed in the same activity – your creativity may surprise you! Don't forget to send us pictures of your children's wonderful work!
