

Building Bricks

Sensory Bottle

You will need:

Plastic bottle

Glitter glue

Extra glitter

Food colouring

Warm water

Building brick mini-figures

Glue gun or strong glue

Method

1. Add a large amount of glitter glue onto the bottle.
2. Add warm water, enough to almost fill the bottle.
3. Pour in food colouring and extra glitter.
4. Add a building brick character.
5. Once everything is in the bottle, glue the lid on for your safety.
6. You are now ready to shake away!
7. Can the child find the character in the bottle?
